

EAGLE

PORTABLE BULK STORAGE

ECONOMICAL, TIME SAVING IN-PLANT OR OUTSIDE STORAGE

Eagle has developed a new system for bulk storage. Eagle's Portable Bulk Storage Bins are available in a range of sizes. Capacities from 50,000 pounds up to 60,000 pounds. The design is a space saver, these units are designed to be able to be placed inside your plant, or placed outside in the parking lot or on a pad. Three Hopper Bottoms of 45 degrees, 10 Degree Roof with a 20" Manway Vent Combination. A ladder installed on the outside makes for easy roof access.

The Eagle Portable Bulk Storage Bin is a heavy duty structural steel unit supported on 4 inch by 4 inch by 3/8 inch steel Frame and Structural Bracing.

Discharge of material can be controlled by a manual or air operated slide gate. Auger, vacuum, or air pressure systems can be used to discharge material.

Sight windows or material level controls are used for inventory purposes.

Eagle Portable Bulk Storage Bin with Truck Fill Kit, Drain Stub, Slide Gate, Vacuum Distribution Box, Material Level Indicators, Roof Vent, and Roof Access Ladder.
